### 2. Identification des dangers

#### 2.1 Classification de la substance ou du mélange

##### Classification (RÈGLEMENT (CE) No 1272/2008)

H315 Provoque une irritation cutanée.Skin corrosion/irritation (SCI)Category 2  
H317 Peut provoquer une allergie cutanée.Sensitization, skin (SS 1 / 1B)Category 1  
H319 Provoque une sévère irritation des yeux.Serious eye damage/eye irritation (EDI)Category 2A  
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.Hazardous to the aquatic environment, long-term hazard (EH C)Category 3

#### 2.2 Éléments d'étiquetage

##### Étiquetage (RÈGLEMENT (CE) No 1272/2008)

Pictogrammes de danger

GHS07

**Mention d'avertissement** AVERTISSEMENT

##### Mentions de danger

H315 Provoque une irritation cutanée.  
H317 Peut provoquer une allergie cutanée.  
H319 Provoque une sévère irritation des yeux.  
H412 Nocif pour les organismes aquatiques, entraîne des effets néfastes à long terme.

Produit **YZS-1203\***

**HUILE DE PARFUM LAVANDE SUPREME**

Version **11.0**

Date de révision **01-02-2024**

Date d'impression **07-03-2024**

**Conseils de prudence** Prévention P273 Éviter le rejet dans l'environnement.  
P280 Porter des gants de protection/des vêtements de protection/un équipement de protection des yeux/ du visage.

Intervention P302+P352 EN CAS DE CONTACT AVEC LA PEAU: laver abondamment à l'eau et au savon.  
P305+P351+P338 EN CAS DE CONTACT AVEC LES YEUX: rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer.  
P332+P313 En cas d'irritation cutanée: consulter un médecin.  
P337+P313 Si l'irritation oculaire persiste: consulter un médecin.  
P361 Enlever immédiatement les vêtements contaminés.  
P391 Recueillir le produit répandu.

#### Composants dangereux qui doivent être listés sur l'étiquette

reaction mass of 2-methylbutyl salicylate and pentyl salicylate  
caryophelene crude  
3-phenylpropen-2-al  
3,7-dimethyl-6-octen-1-ol (dl-citronellol)  
coumarine  
2,6-dimethyl-7-octen-2-ol  
1,8-cineole  
phenol, 4allyl-2-methoxy  
trans-3,7-dimethyl-2,6-octadien-1-ol (geraniol)  
2-hexyl-3-phenyl-2-propenal (trans & cis)  
iso bornyl cyclo hexanol  
isomeric sesquiterpenoid ketones  
limonene  
linalool  
linalyl acetate  
3-methyl-4-(2,6,6-trimethyl-2-cyclohexen-1-yl)-3-buten-2-one  
ocimene (natural constituent)  
para cymene  
4-tert-butylcyclohexyl acetate  
alpha-pinene  
terpinen-4-ol  
1-methyl-4-(1-methylethyl)-1,4-cyclo-  
acetyl cedrene

### 2.3 Autres dangers

Cette substance/ce mélange ne contient pas de composants classés comme persistants, bioaccumulables et toxiques (PBT), ou très persistants et très bioaccumulables (vPvB) à des niveaux de 0,1 % ou plus.

Informations écologiques: La substance/le mélange ne contient pas composants considérés comme ayant des propriétés de perturbation endocrinienne, conformément à l'article 57(f) de REACH ou au règlement délégué (UE) 2017/2100 ou au règlement (UE) 2018/605 de la Commission à des niveaux de 0,1 % ou plus.

Informations toxicologiques: La substance/le mélange ne contient pas composants considérés comme ayant des propriétés de perturbation endocrinienne, conformément à l'article 57(f) de REACH ou au règlement délégué (UE) 2017/2100 ou au règlement (UE) 2018/605 de la Commission à des niveaux de 0,1 % ou plus.

#### **4. Premiers secours**

##### **4.1 Description des premiers secours**

|                                 |  |
|---------------------------------|--|
| Conseils généraux               | S'éloigner de la zone dangereuse.<br>Montrer cette fiche de données de sécurité au médecin traitant.<br>Ne pas laisser la victime sans surveillance.   |
| En cas d'inhalation             | En cas d'inconscience, allonger en position latérale stable et appeler un médecin.<br>Si les troubles se prolongent, consulter un médecin.   |
| En cas de contact avec la peau  | En cas de contact avec la peau, bien rincer à l'eau.   |
| En cas de contact avec les yeux | Rincer immédiatement l'oeil (les yeux) à grande eau.<br>Enlever les lentilles de contact.<br>Protéger l'oeil intact.<br>Maintenir l'oeil bien ouvert pendant le rinçage.<br>Si l'irritation oculaire persiste, consulter un médecin spécialiste.                         |
| En cas d'ingestion              | Maintenir l'appareil respiratoire dégagé.<br>Ne pas faire boire de lait ou de boissons alcoolisées.<br>Ne jamais rien faire avaler à une personne inconsciente.<br>Transporter immédiatement la victime à l'hôpital.<br>Faire immédiatement vomir et appeler le médecin. |

##### **4.2 Principaux symptômes et effets, aigus et différés**

|                   |                       |
|-------------------|-----------------------|
| Symptômes/Risques | donnée non disponible |
|-------------------|-----------------------|

##### **4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires**

|            |                       |
|------------|-----------------------|
| Traitement | donnée non disponible |
|------------|-----------------------|

#### **5. Mesures de lutte contre l'incendie**

##### **5.1 Moyens d'extinction**

|                                  |  |
|----------------------------------|--|
| Moyens d'extinction appropriés   | Dry chemical<br>Mousse résistant aux alcools (CO2)<br>eau pulvérisée |
| Moyens d'extinction inappropriés | Jet d'eau à grand débit.   |

##### **5.2 Dangers particuliers résultant de la substance ou du mélange**

|  |   |
|--|---|
| Dangers spécifiques pendant la lutte contre l'incendie | Ne pas laisser pénétrer l'eau d'extinction contaminée dans les égouts ou les cours d'eau. |
|--|---|

##### **5.3 Conseils aux pompiers**

|   |  |
|---|--|
| Équipement de protection spécial pour le personnel préposé à la lutte contre le feu | Porter un appareil de protection respiratoire autonome pour la lutte contre l'incendie, si nécessaire.   |
| Autres informations   | Collecter séparément l'eau d'extinction contaminée, ne pas la rejeter dans les canalisations.<br>Les résidus d'incendie et l'eau d'extinction contaminée doivent être éliminés conformément à la réglementation locale en vigueur. |

#### **6. Mesures à prendre en cas de dispersion accidentelle**

##### **6.1 Précautions individuelles, équipement de protection et procédures d'urgence**

|                           |  |
|---------------------------|--|
| Précautions individuelles | Utiliser un équipement de protection individuelle. |
|---------------------------|--|

##### **6.2 Précautions pour la protection de l'environnement**

|   |  |
|---|--|
| Précautions pour la protection de l'environnement | Éviter que le produit arrive dans les égouts.<br>Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger.<br>En cas de pollution de cours d'eau, lacs ou égouts, informer les autorités compétentes conformément aux dispositions locales. |
|---|--|

##### **6.3 Méthodes et matériel de confinement et de nettoyage**

|                       |   |
|-----------------------|---|
| Méthodes de nettoyage | Enlever avec un absorbant inerte (sable, gel de silice, agglomérant pour acide, agglomérant universel, sciure). Conserver dans des récipients adaptés et fermés pour l'élimination. |
|-----------------------|---|

### 8.2 Contrôles de l'exposition

#### Équipement de protection individuelle

|                      |   |
|----------------------|---|
| Protection des mains | Utilisez des gants de protection. Les gants doivent se conformer à la norme EN 374-1 / 2/3.<br>Matériau approprié: nitrile<br>Temps de pénétration (durée maximale de port):> 30 min.<br>Épaisseur du matériau: 0,13 mm   |
| Protection des yeux  | Bouteille de rinçage oculaire avec de l'eau pure<br>Hermétique, lunettes de sécurité approuvées avec écrans latéraux avec la norme NF EN166.<br>Porter un écran-facial et des vêtements de protection pour les problèmes de mise en oeuvre.<br>Protection de la peau et du corps  |
| Mesures d'hygiène    | vêtements étanches Choisir la protection individuelle suivant la quantité et la concentration de la substance dangereuse au poste de travail.<br>Ne pas manger et ne pas boire pendant l'utilisation.<br>Ne pas fumer pendant l'utilisation.<br>Se laver les mains avant les pauses et à la fin de la journée de travail. |

#### Contrôles d'exposition liés à la protection de l'environnement

|                   |  |
|-------------------|--|
| Conseils généraux | Éviter que le produit arrive dans les égouts.<br>Éviter un déversement ou une fuite supplémentaire, si cela est possible sans danger.<br>En cas de pollution de cours d'eau, lacs ou égouts, informer les autorités compétentes conformément aux dispositions locales. |
|-------------------|--|

### 9. Propriétés physiques et chimiques

#### 9.1 Informations sur les propriétés physiques et chimiques essentielles

|                                  |                       |

**9.2 Autres informations** Non applicable

## 10. Stabilité et réactivité

**10.1 Réactivité** aucun(e)

**10.2 Stabilité chimique** Ce produit est chimiquement stable.

### **10.3 Possibilité de réactions dangereuses**

Réactions dangereuses Pas de décomposition si le produit est entreposé et utilisé selon les prescriptions.

### **10.4 Conditions à éviter**

Conditions à éviter donnée non disponible

### **10.5 Matières incompatibles**

Matières à éviter donnée non disponible

### **10.6 Produits de décomposition dangereux**

Produits de décomposition dangereux donnée non disponible  
Décomposition thermique donnée non disponible

## 11. Informations toxicologiques

### **11.1 Informations sur les effets toxicologiques**

**Toxicité aiguë par voie orale** Estimation de la toxicité aiguë Dose mg/kg : 2719  
Méthode Méthode de calcul

**Toxicité aiguë par inhalation** Estimation de la toxicité aiguë Dose mg/ltr:  
Méthode Méthode de calcul Il n'existe pas d'information disponible pour le produit lui même

**Toxicité aiguë par voie cutanée** Estimation de la toxicité aiguë Dose mg/kg : 4860  
Méthode Méthode de calcul

**Toxicité aiguë (autres voies d'administration)**  
Il n'existe pas d'information disponible pour le produit lui même.

### **Corrosion cutanée/irritation cutanée**

Irritation de la peau Peut causer des irritations de la peau et/ou dermatites.

### **Lésions oculaires graves/irritation oculaire**

Irritation des yeux Peut provoquer des lésions oculaires irréversibles.

### **Sensibilisation respiratoire ou cutanée**

Sensibilisation Il n'existe pas d'information disponible pour le produit lui même.

### **Mutagénicité sur les cellules germinales**

Mutagénicité sur les cellules germinales  
Il n'existe pas d'information disponible pour le produit lui même.

### **Cancérogénicité**

Cancérogénicité Il n'existe pas d'information disponible pour le produit lui même.

### **Toxicité pour la reproduction**

Toxicité pour la reproduction Il n'existe pas d'information disponible pour le produit lui même.

### **Toxique systémique pour un organe cible - exposition unique**

Toxique systémique pour un organe cible - exposition unique  
Il n'existe pas d'information disponible pour le produit lui même.

### **Toxique systémique pour un organe cible - expositions répétées**

Toxique systémique pour un organe cible - expositions répétées  
Il n'existe pas d'information disponible pour le produit lui même.

### **Danger par aspiration**

Produit **YZS-1203\*** **HUILE DE PARFUM LAVANDE SUPREME**

Version **11.0** Date de révision **01-02-2024** Date d'impression **07-03-2024**

Toxicité par aspiration Il n'existe pas d'information disponible pour le produit lui-même.

**Phototoxicité**

Phototoxicité Il n'existe pas d'information disponible pour le produit lui-même.

**Autres informations** donnée non disponible

**11.2 Informations sur les autres dangers**

**Propriétés perturbatrices endocriniennes**

**Évaluation**

La substance/le mélange ne contient pas de composants considérés comme ayant des propriétés de perturbation endocrinienne, conformément à l'article 57(f) de REACH ou au règlement délégué (UE) 2017/2100 ou au règlement (UE) 2018/605 de la Commission à des niveaux de 0,1 % ou plus.

**Autres informations** donnée non disponible

**12. Informations écologiques**

**12.1 Toxicité**

Toxicité pour le poisson donnée non disponible  
Toxicité pour la daphnie et les autres invertébrés aquatiques.

Toxicité pour les algues donnée non disponible

**12.2 Persistance et dégradabilité**

Biodégradabilité donnée non disponible  
Biodégradabilité BO (produits organiques biodégradables)% 96,2

**12.3 Potentiel de bioaccumulation**

Bioaccumulation donnée non disponible

**12.4 Mobilité dans le sol**

Mobilité donnée non disponible  
Répartition entre les compartiments environnementaux donnée non disponible  
Conseils supplémentaires Cheminement et devenir dans l'environnement donnée non disponible  
Élimination physico-chimique donnée non disponible

**12.5 Résultats des évaluations PBT et VPVB**

**Évaluation**

Cette substance/ce mélange ne contient pas de composants classés comme persistants, bioaccumulables et toxiques (PBT), ou très persistants et très bioaccumulables (vPvB) à des niveaux de 0,1 % ou plus.

**12.6 Propriétés perturbatrices endocriniennes**

**Évaluation**

La substance/le mélange ne contient pas de composants considérés comme ayant des propriétés de perturbation endocrinienne, conformément à l'article 57(f) de REACH ou au règlement délégué (UE) 2017/2100 ou au règlement (UE) 2018/605 de la Commission à des niveaux de 0,1 % ou plus.

**12.7 Autres effets néfastes**

Demande Biochimique en Oxygène (DBO) donnée non disponible

Carbone organique dissous (COD) donnée non disponible

Demande Chimique en Oxygène (DCO)

|         |                  |  |
|---------|------------------|--|
| Produit | <b>YZS-1203*</b> | <b>HUILE DE PARFUM LAVANDE SUPREME</b>                   |
| Version | 11.0             | Date de révision 01-02-2024 Date d'impression 07-03-2024 |

Halogènes organiques (AOX) donnée non disponible

Information écologique supplémentaire donnée non disponible

Un danger environnemental ne peut pas être exclu dans l'éventualité d'une manipulation ou d'une élimination peu professionnelle. Toxique pour les organismes aquatiques, entraîne des effets néfastes à long terme.

### **13. Considérations relatives à l'élimination**

#### **13.1 Méthodes de traitement des déchets**

|                       |  |
|-----------------------|--|
| Produit               | Empêcher le produit de pénétrer dans les égouts, les cours d'eau ou le sol. Ne pas contaminer les étangs, les voies navigables ou les fossés avec le produit ou le récipient utilisés. Envoyer à une entreprise autorisée à gérer les déchets. |
| Emballages contaminés | Vider les restes.<br>Éliminer comme produit non utilisé.<br>Ne pas réutiliser des récipients vides.  |

Se conformer aux réglementations en vigueur localement.

### **14. Informations relatives au transport**

#### **ADR/RID/ADN**

Numéro ONU non réglementé

contient

Classe(s) de danger pour le transport / Groupe d'emballage

-----

#### **IATA/ICAO**

Numéro ONU non réglementé

contient

Classe(s) de danger pour le transport / Groupe d'emballage

-----

#### **IMDG**

Numéro ONU non réglementé

contient

Classe(s) de danger pour le transport / Groupe d'emballage

-----

### **15. Informations réglementaires**

#### **15.1 Réglementations/législation particulières à la substance ou au mélange en matière de sécurité, de santé et d'environnement**

ABM Cat Water hazard class NL (ABM) Cat A3

WGK WGK2

#### **15.2 Évaluation de la sécurité chimique**

Une évaluation de la sécurité chimique n'est pas requise pour cette substance

### **16. Autres informations**

#### **Texte complet des Phrases-H citées dans les sections 2 et 3.**

H226 Liquide et vapeurs inflammables.

On 27 July 2023, the EU Regulation extending the list of fragrance allergens to be labelled in cosmetic products was published in the Official Journal of the European Union.

The Regulation has updated Annex III of the Cosmetic products Regulation with 56 new fragrance ingredients for which the presence should be indicated on the label in case of being above the established thresholds for leave-on and rinse off products (0,001 and 0,01%).

The regulation enters into force on 16 August 2023, with a transition period of 3 years for new products and 5 years for existing products.

With kind regards,

**Gildewerk BV**

This certificate is generated by calculation based on data for ingredients. The data in this document has been prepared by Gildewerk in accordance with Gildewerks internal protocols and procedures in order to evaluate characteristics and/or performance. Detection limit for calculation is ten ppm. The information contained herein is, to the best of Gildewerks knowledge, true and accurate at the time it is given. It is provided to Customer for its information and internal use only. Gildewerk is not liable for any damages that may result from the misuse of the data. It is Customer's responsibility to perform its own evaluations on the material evaluated herein, including with respect to end-use applications. Any Customer product, marketing or other claims are Customer's sole responsibility. A concentration represented by "0,000" corresponds to <10 ppm.

## STATEMENT

**Code** YZS-1203\*

**PERFUME OIL LAVENDER SUPREME**

07-03-2024

To whom it concerns

### Musk statement

product YZS-1203\* PERFUME OIL LAVENDER SUPREME contains the following ingredients:

- 0,00 % (Musk) Nitromusk
- 0,00 % (Musk) Polycyclic musk
- 0,00 % (Musk) Macrocyclic musk

### Vegan declaration

We have reviewed this product and declare that, to the best of our knowledge, it is suitable for the Vegan diet. Vegan products do not contain animal ingredients (mammalian, poultry, fish, shellfish, mollusk, insects) as well as ingredients derived from animal such as dairy, eggs and bee products or animal enzymes.

### GMO directly added

(Declaration Limit: 0,01%)

According to the formulation – this fragrance oil does not contain ingredients produced on the basis of genetically modified organisms.

### Animal Testing

We herewith confirm that our fragrances have not been the subject of animal testing by or on behalf of our company.

### BSE / TSE

(Declaration Limit: 0,01%)

Our fragrances are mixtures of natural (plant origin) and synthetic products. To the best of our knowledge it does not contain any ingredients which may be suspected of BSE / TSE.

### Heavy metals

Gildewerk does not use any heavy metal for direct addition into fragrances, bases and ingredients. Gildewerk does not undertake routine analysis on heavy metals and the potential presence of heavy metals in ingredient is of the order of magnitude of unavoidable traces. Based on our experience and to the best of our knowledge, the total quantity of heavy metals that may be present in this product are significantly below the limits defined in applicable regulations.

### Nanomaterials

We certify, to the best of our knowledge, that this product does not contain any ingredient defined as a nanomaterial according to the article 2 of Cosmetic Regulation 1223/2009.

“Nanomaterial” means an insoluble or biopersistent and intentionally manufactured material with one or more external dimensions, or an internal structure, on the scale from 1 to 100nm.

| Chain Model                      | Mass Balance       |
| Certificate Start Date           | 16 October 2019    |

### HICC (Lyral), atranol and chloratranol

Please note that Commission Regulation (EU) 2017/1410 of 2 August 2017 amending Annexes II and III to Regulation (EC) No 1223/2009 of the European Parliament and of the Council on cosmetic products has been published in the Official Journal of August 3rd, 2017.

HICC, Atranol and chloratranol have been added to Annex II of the Cosmetic Products Regulation (list of substances prohibited in cosmetic products) with the entries 1380, 1381 and 1382:

- 3-(4-Hydroxy-4-methylpentyl) cyclohex-3-ene-1-carbaldehyde [CAS# 51414-25-6]
- 4-(4-Hydroxy-4-methylpentyl) cyclohex-3-ene-1-carbaldehyde [CAS# 31906-04-4]
- Atranol [CAS# 526-37-4]
- chloratranol [CAS# 57074-21-2]

Commission Regulation (EU) 2017/1410 also deletes the Annex III entry (79) for HICC with application from 23rd August 2021.

The presence of atranol and chloratranol, being natural components of oak tree moss and treemoss extracts<sup>1</sup>, is banned above technically unavoidable traces in good manufacturing practice. As purity requirements for both moss extracts have been established in IFRA Standards since 2009, all products on shelves should be compliant by the entry into force of this regulation.

The transitional periods are the following:

- From 23 August 2019, cosmetic products containing one or more of these substances shall not be placed on the European Union market.
- From 23 August 2021, cosmetic products containing one or more of these substances shall not be made available on the Union market.

### BMHCA (Lilial) ban in cosmetics

The 15th ATP1 to the EU CLP2 regulation, COMMISSION DELEGATED REGULATION (EU) 2020/1182, has been published on August 11th, 2020, in the Official Journal and will apply from 1 March 2022. It lists BMHCA (Lilial) on Annex VI as toxic for Reproduction category 1B (Rep. 1B, H360Fd).

Subsequently, BMHCA (Lilial) will be banned for the use in cosmetic products in the EU. The EU Commission will include this substance in the CMR Omnibus Act IV for integration into Annex II (list of prohibited substances in cosmetics) of the EU Cosmetics Regulation.

This means that by 1 March 2022 the use of BMHCA (Lilial) in cosmetic products (new and existing) will be banned in the EU. All products containing BMHCA (Lilial) should be off the shelf by this date.

It is important to highlight that the above-mentioned regulatory events and activities are limited to the EU. The use of BMHCA in cosmetic products outside the EU remains unaffected.

### BMHCA (Lilial) restriction in household products (e.g. detergents, household and cleaning products, air-fresheners)

Please be informed that the ban of BMHCA also imposes a restriction to the placing on the market and use of BMHCA in household products for consumers and professional users.

The restriction, in practice, implies the following:

- BMHCA **cannot be placed on the market or used**, in products sold to the general public (consumers) **when its concentration is equal or above** the generic concentration limit specified in part 3 of Annex I of the EU CLP - i.e. **0.3%** (final product (mixture) is not classified as Rep 1B).
- BMHCA **may be placed on the market and used in products sold for professional use** above the classification concentration limit of **equal or above 0.3%** (product is classified as Rep 1B). In this case the packaging of such substances and mixtures has to be **marked** visibly, legibly and indelibly as **'Restricted to professional users'**.

This restriction applies to BMHCA as such, as constituent of other substances, or, in mixtures.

If the same applicability date as the EU CLP harmonized classification will be used, this would mean that from 1 March 2022 onward, consumer products containing 0.3% or more of BMHCA can no longer be sold in the EU.

0,000 % • BMHCA (Lilial)[CAS# 80-54-6]

### Karanal on the EU – REACH Authorization List

- Karanal [CAS# 117933-89-8] - No use (delisted from pallet 17th July, 2023)

## STATEMENT

**Code** YZS-1203\*

**PERFUME OIL LAVENDER SUPREME**

07-03-2024

We would like to inform you that, with the inclusion of Karanal (CAS 117933-89-8) on the EU REACH Authorization List, Gildewerk has defined a reformulation plan which consists of replacing Karanal with a combination of ingredients that will give the same olfactive character, performance and stability.

Gildewerk ensures that product safety and regulatory compliance are not impacted by the formula change. The materials used for the reformulation have been thoroughly reviewed and specifically selected based on their regulatory and safety profile so that the reformulation formula shows no negative impact on the final classification/safety of the formula or the allergen levels. Thus the modified formula is safe for consumer use and regulatory compliant.

The commercial name and code of the reformulated fragrance will not change.

The placing on the market and the use of Karanal (including the use in cosmetic products) will be prohibited from 27 August 2023 onwards. Fragrance batches produced after 27 August 2023 will be reformulated and free from Karanal.

This does not impact the use of Karanal in other regions outside of the EU. Customers outside of Europe may be impacted if their products are manufactured or marketed in Europe. If you have any questions, please contact your client support representative.

### REACH

We, Gildewerk B.V., declare, to the best of our knowledge, that we are in compliance with our obligations according to the REACH Regulation (EC) No. 1907/2006 and its modifications and updates for the substances contained in the fragrance compound(s)/ingredient(s) delivered to customer.

All substances supplied by Gildewerk B.V., as well as substances contained in our mixtures are either:

- Registered (Gildewerk B.V. act as a downstream user as defined by the REACH Regulation), or
- Exempted of Registration

Any substances out of scope e.g. exempted substances or substances below the threshold for registration under REACH (<1tpa) are allowed to be used in products without registration in the EU.

The above mentioned information is continuously checked by us and also demanded to our suppliers. We also continue to monitor the ongoing amendments of the Regulation and will update our compliance statement as appropriate.

**Biodegradability BO (Biodegradable Organics) %** 96,2

## STATEMENT

**Code** YZS-1203\*

**PERFUME OIL LAVENDER SUPREME**

07-03-2024

Please be aware that fragrance compounds are not tested for biodegradability. The biodegradability of a fragrance compound is assured based on data on the components and is assessed by summing the percentage (by weight) of ingredients which are biodegradable. The following criteria have been used to identify "biodegradable" fragrance ingredients used in above mentioned fragrance compound:

1. Biodegradable following internationally accepted OECD/ISO guideline studies accepted by authorities.
  - The tests include OECD 301 series, OECD 310, OECD 302 series and ISO 14593;
  - The pass criterion in these tests is 60-70% within 14 or 28 days (depending on the test and the endpoint measured);
  - If biodegradation has started but a plateau has not been reached, the test may be prolonged (typically up to 60 days).
2. Use of simple structural read-across from known biodegradable ingredients to structurally very close analogues that are therefore fully expected also to be biodegradable.
3. Natural complex substances (e.g. essential oils) are assessed based on either test data for the NCS itself or data for the constituents.

### **Publication of final Regulation of Methyl-N-methylantranilate in cosmetic products in Europe**

We would like to inform you that Commission Regulation (EU) 2022/135 has been published in the Official Journal of the European Union on January 31, 2022. It amends Regulation (EC) No 1223/2009 of the European Parliament and of the Council as regards the use of Methyl-N-methylantranilate in cosmetic products.

It sets maximum use levels of 0.1% in leave-on products and 0.2% in rinse-off products. Please note that the material should not be used in sunscreen products and products marketed for exposure to natural or artificial UV light.

From 21 August 2022 cosmetic products containing the substance and not complying with the restrictions shall no longer be placed on the EU market (i.e. new products). From 21 November 2022 the products shall not be made available (i.e. existing products) on the Union market.

**0,000 % Methyl-N-methylantranilate**

### **Benzophenone - Publication of the 18th ATP to the EU CLP Regulation**

We would like to inform you that the 18th ATP to the EU CLP regulation, (COMMISSION DELEGATED REGULATION (EU) 2022/692) was published on May 3rd, 2022 and will enter into force on the twentieth

## STATEMENT

**Code** YZS-1203\*

**PERFUME OIL LAVENDER SUPREME**

07-03-2024

day following that of its publication in the Official Journal of the European Union. The new/updated classifications shall apply as from 1 December 2023.

Please note that index number 606-153-00-5 corresponds to benzophenone (CAS No 119-61-9 / EINECS No 204-337-6) classified as Carcinogenic 1B (H350).

This means that this substance will be restricted in household products and air care products in the EU according to the REACH restriction entry number 28 (see REACH Annex XVII).

Regarding the use of benzophenone in cosmetics, it will be forbidden for this use on 1 December 2023 if no exemption request is submitted according to article 15.2 of the Cosmetics Regulation. This will happen through the publication of a CMR Omnibus to the EU Cosmetics Regulation.

### SCCS/1656/23 Preliminary Opinion

#### Benzyl Salicylate (CAS No. 118-58-1, EC No. 204-262-9)

Based on the data provided and assessed and taking under consideration the concerns related to potential endocrine disrupting properties, the SCCS considers Benzyl Salicylate safe when used up to the maximum concentrations provided in Table 1 of this Opinion.

Table 1: Maximum use concentrations of benzyl salicylate in cosmetic products

| Type of cosmetic product exposure   | Maximum % concentration used |
|---|------------------------------|
| Hydroalcoholic-based fragrances (spray and non-spray)                     | 4                            |
| Rinse-off skin & hair products (except rinse off body products)           | 0.5                          |
| Rinse off body products   | 1.3                          |
| Leave on skin & hair products (non-spray/non-aerosol)(except body lotion) | 0.5                          |
| Leave on hair products (spray/aerosol)                                    | 0.5                          |

## IFRA CONFORMITY CERTIFICATE 51st Amendment

Code **YZS-1203\***

**PERFUME OIL LAVENDER SUPREME**

07-03-2024

### \*\*\*IFRA 51st AMENDMENT\*\*\*

On June 30th 2023, IFRA has issued the 51st Amendment to its Standards for the safe use of fragrance ingredients.

Beginning with the 49th Amendment, IFRA Standards reflect the introduction of several improvements to the risk assessment methodology. These improvements specifically relate to the revised methodology of Quantitative Risk Assessment for fragrance ingredients for dermal sensitization (hereafter QRA2) and a new way to assess systemic toxicity based on an aggregate exposure model.

The main impact relates to the identification of acceptable levels of fragrance ingredients in different product types and their management, on a practical basis, through grouping distinctive product types into product categories with specific limitations.

The applicable timelines for the 51st Amendment are as follows. These timelines refer to mixtures of fragrance ingredients (formulas) and not to finished consumer product(s).

|   | Date for Standards entering into force for new creations           | Date for Standards entering into force for existing creations        |
|---|--|--|
| IFRA Standard prohibiting the use of ingredients                                | 2 months after the date of the Notification (i.e. August 30, 2023) | 13 months after the date of the Notification (i.e. July 30, 2024)    |
| IFRA Standards restricting or setting specifications for the use of ingredients | 9 months after the date of the Notification (i.e. March 30, 2024)  | 28 months after the date of the Notification (i.e. October 30, 2025) |

### Note box:

Due to the possible ingestion of small amounts of fragrance ingredients from their use in products in Categories 1 and 6, materials must not only comply with IFRA Standards but must also be recognized as safe as a flavoring ingredient as defined by the IOFI Code of Practice ([www.iofi.org](http://www.iofi.org)). For more details see chapter 1 of the Guidance for the use of IFRA Standards.

- The IFRA Standards are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

The creative perfumery procedures in Gildewerk Fragrances ensure that Fragrance compounds are composed only of ingredients approved by the safety clearance procedure, and satisfy, according to the current state of knowledge, the safety requirements for the intended application under normal and reasonably foreseeable conditions of use.

For other kinds of application or use at higher concentration levels, a new safety evaluation may be needed; please contact Gildewerk.
